

# HELD BY PRODUCTION and ROYALTY ISSUES SEMINAR

**SPEAKER | ELI KIEFABER || AND SELECTED PANELISTS**

AAPL's Held by Production is designed to discuss the HBP status of a lease from two perspectives:

- 1) The state regulatory statutes
- 2) The terms in the oil and gas lease

It is also designed with the in-house and title landman in mind, as it pertains to putting a lease block together or making an acquisition or divestiture of production and/or oil and gas leasehold. The information is presented in a generalized fashion rather than focusing on any one state, although certain situations in individual states will be discussed from an example point of view.

A bound book of materials is provided.

**Accredited for 6 continuing education credits.**
